We Did It, IRB! We're the Best Beach Town!

There is exciting news to celebrate in our little slice of paradise: Indian Rocks Beach has been named Best Beach Town by Creative Loafing!

While our beautiful shoreline, breathtaking sunsets and sparkling Gulf waters certainly make IRB special, we know this recognition is about so much more than the beach. It is about the heart of our community; the friendly waves, locally owned businesses, treasured traditions and neighbors who are always willing to lend a helping hand.

Indian Rocks Beach is where families make memories, friends gather for community events and visitors quickly discover why so many of us are proud to call IRB home. From peaceful morning walks along the shore and afternoons at Kolb Park to local dining, outdoor adventures and picture-perfect sunsets, our city offers the best of coastal living with the warmth and charm of a close knit community.

Being named Best Beach Town is an incredible honor, and it belongs to everyone who helps make Indian Rocks Beach such a remarkable place. Thank you to our neighbors, businesses, community organizations, volunteers, visitors, and Team IRB members for sharing your time, energy and love for our city.

We have always known Indian Rocks Beach is one of a kind and now, even more people know it too! Here's to our beautiful beach town, the wonderful people who call it home and the community spirit that brings us together.

Indian Rocks Beach: A Great Place to Visit and an Even Better Place to Call Home.

CLEANER SAND, FRESHER AIR: NEW BEACH SMOKING AND VAPING BAN

The City of Indian Rocks Beach is taking another step toward protecting the shoreline we all love. Ordinance 2026-04, effective September 8, 2026, prohibits cigarettes and vaping on the City's public beaches. The City Commission unanimously approved the ordinance to help keep our beaches clean and welcoming for neighbors and visitors.

The ordinance covers the possession and use of cigarettes, filtered cigars, electronic cigarettes and vaping devices. Exceptions include unfiltered cigars, certain City sponsored or co sponsored events specifically approved by the City Commission, and areas the Commission may designate for smoking by resolution.

This measure aims to reduce exposure to secondhand smoke, prevent cigarette butt and vaping related litter, and protect coastal resources and wildlife. Every piece of litter kept off the sand helps preserve the beauty of Indian Rocks Beach.

Neighbors and visitors can help by following posted beach rules and sharing this update with family, friends and guests. Local businesses and vacation rental hosts are also encouraged to make beachgoers aware of the change.

Thank you for helping care for our coast and keeping Indian Rocks Beach a place everyone can enjoy.

Building Community, One Neighbor at a Time.

PUBLIC WORKS DEPARTMENT

NATIONAL POLLUTION DISCHARGE ELIMINATION SYSTEM

The N.P.D.E.S. (National Pollution Discharge Elimination System) regulations require municipalities to demonstrate adequate legal authority to prohibit illicit discharges to our storm sewer systems, provide maps of our storm sewers and outfalls, provide monitoring data showing the quality of runoff from local areas of various land use types, propose a management program that includes control measures to reduce pollutants in runoff, provide a program to detect and remove illicit discharges to our system, provide a program for monitoring compliance and the success of our programs, and provide an accounting of our fiscal resources available for carrying out this program.

In April 1994, the City of Indian Rocks Beach participated, along with other cities in Pinellas County, in jointly applying for our N.P.D.E.S. permit through Pinellas County. The cities, FDOT and Pinellas County work to protect and promote the public health, safety and general welfare through the management of storm water runoff. This is where you, as a resident, can help.

WHY ARE WE INSPECTING FOR ILLICIT DISCHARGES?

The City of Indian Rocks Beach is basically responsible to ensure that our storm water discharges do not pollute the waters of the United States. The regulations require that we adopt an ordinance to prohibit illicit discharges. In May 1994, the City enacted Ordinance No. 545 specifically dealing with storm water sewers.

WHAT SHOULD I DO IF I FIND A SUSPECTED DISCHARGE?

You should report it to the City of Indian Rocks Beach Public Works Department, at 727/595-6889, or the Pinellas County Sheriff's Office, at 727/582-6200. They will then decide whether to report it further and to whom. They will also decide, based on your observation, if it is an emergency that needs to be stopped right away.

LEGAL DISCHARGES

Some discharges are not considered illegal under the City's Ordinance include:

- ▶ Flows from firefighting, Irrigation water, Diverted stream flows, Rising ground waters
- ▶ Water line flushing and other contributions from potable water sources
- ▶ Uncontaminated pumped groundwater, Foundation and footing drains
- ▶ Water from crawl space pumps, Uncontaminated air conditioning condensation
- ▶ Individual residential car washings, Springs, Flows from riparian habitats and wetland
- ▶ Swimming pools direct infiltration of ground water to the separate storm sewer system

HELP REDUCE FLOODING IN OUR COMMUNITY

Neighbors can help protect Indian Rocks Beach by keeping drainage areas clear, maintaining their properties and staying informed. These simple steps can reduce localized flooding and support a safer community.

Keep drainage areas clear.

Keep trash, leaves and yard debris out of streets, storm drains, swales and ditches. Blockages can cause water to back up into streets, yards and homes.

Maintain drainage on your property.

Regularly inspect drainage areas on your property and safely remove accumulated leaves and debris. Clear pathways help rainwater flow away from structures. Avoid redirecting runoff onto neighboring properties or altering public drainage facilities.

Plan for proper drainage.

Consider drainage when planning landscaping or property improvements. Rain gardens, pervious pavers and vegetated buffers can help manage runoff when appropriate for the site. Consult the proper permitting authorities before changing grading or drainage. Visit pinellas.gov/stormwater-manual for guidance.

Stay informed and prepared.

Monitor local news, official weather forecasts and City updates when flooding is possible. Sign up for Alert Pinellas to receive emergency notifications by text, phone or email at pinellas.gov/alert-pinellas. Know your evacuation zone, follow evacuation orders and never drive or walk through floodwater.

Maintaining drainage can help reduce flooding from rainfall, but it does not prevent storm surge or eliminate flood risk.

Building Community One Prepared Neighbor at a Time.

CITY OF INDIAN ROCKS BEACH

CODE ENFORCEMENT | CONTRACTOR & PROPERTY OWNER NEWSLETTER

OCTOBER 2026

Construction Site Bulletin

NPDES means **National Pollutant Discharge Elimination System** - a program that protects water quality by controlling pollution in discharges.

NO CONSTRUCTION WORK ON SUNDAYS

MONDAY-SATURDAY: 7:00 A.M.-6:00 P.M. | City Code Sec. 26-35(8)

Applies to the disturbing operation of tools or machinery for construction, drilling, dredging, repair, alteration or demolition.

Code exceptions: Emergency work by a public service utility or a City-approved permit under Sec. 26-33(b). Domestic power tools are addressed separately in Sec. 26-35(10): outdoor use causing unreasonable noise across a residential property line is restricted from 9:00 p.m. to 7:00 a.m. General noise rules still apply.

BMPs: PRACTICAL POLLUTION CONTROLS

BMPs are **best management practices**: controls and work habits that prevent erosion, contain waste and keep pollutants out of runoff. Install controls before work and keep them maintained.

Concrete & washout

Provide a designated, leakproof washout container or properly lined system for concrete, stucco, mortar and related cleanup. Keep wash water and slurry contained; do not rinse them into the street, gutter, drain or waterway. Repair leaks and empty the system before it overflows.

Track pads & clean streets

Provide a stabilized construction entrance where vehicles would track soil off-site. Route traffic over the pad and refresh stone when it becomes packed with mud. Sweep, shovel or vacuum tracked material from pavement and gutters. Never hose sediment toward a storm drain.

Silt fences & perimeter controls

Protect exposed, downhill site edges with silt fence or another suitable sediment barrier. Secure the fabric, bury the bottom and close bypass gaps. Repair tears, fallen sections and undermining. A chain-link fence alone does not filter sediment. Use a control designed for the actual flow.

Portable toilets

Place units on firm, level ground and secure them against tipping. Keep them away from drainage paths and waterfront edges; maintain service access. Repair or replace leaking units promptly. Contain sanitary-waste releases and notify the City when a prohibited storm-system discharge occurs.

CITY OF INDIAN ROCKS BEACH

CODE ENFORCEMENT | CONTRACTOR & PROPERTY OWNER NEWSLETTER

OCTOBER 2026

Property Care & Clean Water

Keep sites maintained. Keep pollutants out of storm drains and coastal waters.

Storm drains & catch basins

Protect inlets that receive site runoff with properly fitted sediment controls. Remove accumulated sediment and maintain drainage capacity. Keep controls clear of traffic and pedestrian routes. Inlet protection works together with perimeter barriers and a clean entrance.

Stockpiles & bare soil

Keep soil, sand and loose materials out of gutters and drainage paths. Cover or contain stockpiles. Stabilize inactive bare ground with sod, mulch, matting or another effective method. Maintain protection until permanent cover is established. Repair erosion and displaced controls promptly.

Property maintenance

Remove loose litter and discarded materials. Maintain grass, shrubs and landscaping. Keep sidewalks and drainage paths clear. Collect grass clippings and leaves; never blow them into streets or drains. Arrange removal of construction debris and contractor-generated yard waste.

Dumpsters & site debris

Provide enough waste-container capacity. Keep debris contained and secure lightweight waste against wind. Cover and maintain containers to prevent escaping waste and leaks. Arrange pickup before overflow. Keep sidewalks and drainage paths clear; obtain City approval for right-of-way use.

Dewatering & waterfronts

Use authorized settling or filtration controls for pumped water. Keep muddy or contaminated water out of drains and coastal waters. Protect seawall edges, contain waterfront debris and maintain required turbidity controls. Store fuels, paints and chemicals securely away from drainage paths.

Stop prohibited discharges

Do not dump concrete slurry, paint, oil, chemicals or sanitary waste into storm drains. Stop the activity causing a prohibited discharge. Protect nearby drains, contain the release and begin cleanup safely. Notify the City immediately. Use trained responders for hazardous materials. **City Code: Secs. 66-98 and 66-99.**

SEE A SUSPECTED ILLICIT DISCHARGE? REPORT IT NOW.

An illicit discharge is an unlawful release into the storm-drain system. Watch for concrete slurry, paint, oil sheen, sewage and sediment-laden pumping. Report the address, time, source and flow direction. Photograph from a safe location. Do not touch or sample unknown material or confront anyone dumping.

FISCAL YEAR 2026-2027 BUDGET HIGHLIGHTS

REVENUE BY FUND

GENERAL	\$6,145,701
SOLID WASTE	\$2,115,000
PARKING	\$1,775,000
LOCAL OPTION SALES	\$ 625,000
LOCAL OPTION GAS	\$ 55,000
RECREATION IMPACT FEE	\$ 5,000
DEVELOPMENT IMPACT FEE	\$ 5,000
MULTIMODAL IMPACT FEE	<u>\$ 5,000</u>

TOTAL CITY REVENUE \$10,730,701

1. Overall, a \$396,171, **6.8%** increase in FY 2027 General Fund revenue over FY 2026, from 5,749,530 in FY 2026 to **\$6,145,701** (in FY 2027).
2. Per the Pinellas County Property Appraiser (PCPAO), the City's total tax roll (**assessed value of all real and personal property**) **increased by 5.26%**, from \$2,137,385,716 to \$2,249,783,015. The increase will generate an approximate **\$201,291**, in additional property tax revenue in FY 2027.
3. **FY 2027 Millage (TAX) Rate: 1.7300**. Same millage rate for the 4th consecutive year.
4. 1.7300 millage rate will yield an estimated \$3,892,125 in property tax revenue. The City budgets at a 97.0% collection rate that will generate **\$3,775,361** in actual revenue, a 5% increase over FY 2026.
5. **Proposed fee/tax adjustments** to begin October 2026:
 - a. **Business Tax Receipts – 5% increase** (last increase in 2015)

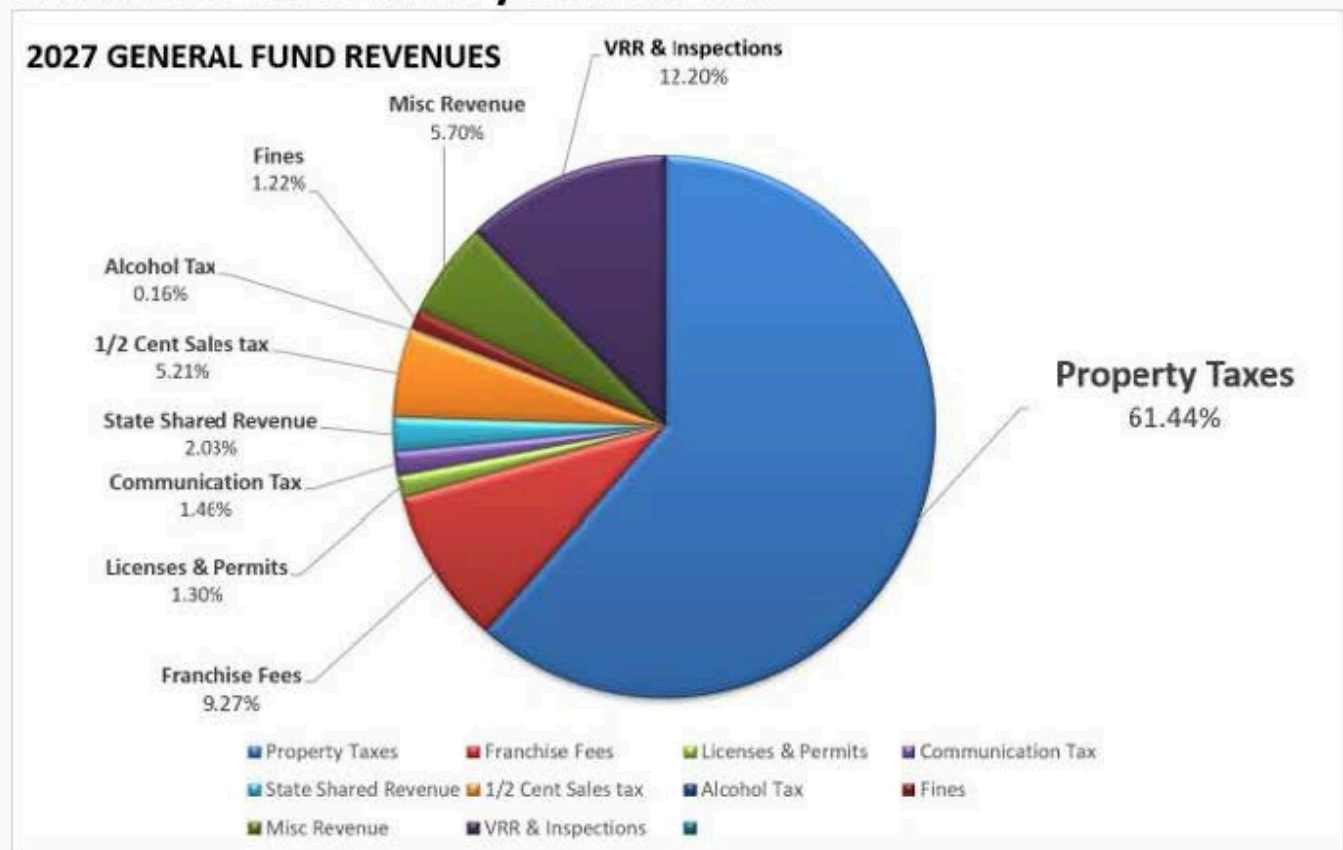

Estimated additional revenue: **\$2,250**
 - b. **Vacation Rental Registration** – application fee increase from \$300 to \$600 per rental unit and a late fee of \$200

Estimated additional revenue: **\$300,000**
6. Creation of a **Parking Fund** - separately account for all Parking revenues, expenses, and transfers associated with a paid parking program that as of May 18, 2026, expanded to include 204 paid spaces at the 18 street/avenue ends/beach accesses in addition to the existing 76 spaces at the Pinellas County Parking lot between 17th and 18th avenues (for a total of 280 paid parking spaces). FY 2027 estimated **Parking Fund revenue is \$1,775,000** with an estimated \$1,523,543 in expenses. **Approximately \$750,000 of those expenses will be transferred to the City's Capital**

Improvement Fund for a variety of Stormwater/Flood Control/Infrastructure improvement projects, mainly Outfall system improvements.

7. All other revenues are stable or slightly increasing based on market conditions including consumer spending.
8. The City as in prior years remains one of a few Pinellas County cities that does not levy & collect the municipal public service (utility) tax, an up to 10% tax on the monthly consumption of electricity, water, natural gas, LP (gas), and/or fuel oil (\$0.04/gallon). Additionally, the City also continues to not levy a dedicated stormwater fee that other cities levy collecting between \$8 to \$18 per month.
9. The transfer of Parking Fund revenue to the City's **FY 2027 - 2031 Capital Improvement Plan** will help to more quickly implement stormwater projects designed to enhance/better control flooding and overall City infrastructure. We anticipate Parking Fund total contributions over the next 5 years between **\$3.75 to \$4.5 million**

Where does the money come from?

EXPENSE BY FUND

GENERAL	\$5,699,237
SOLID WASTE	\$2,114,636
PARKING	\$1,523,543
LOCAL OPTION SALES	\$ 625,000
LOCAL OPTION GAS	\$ 60,000
RECREATION IMPACT FEE	\$ 0
DEVELOPMENT IMPACT FEE	\$ 0
MULTIMODAL IMPACT FEE	<u>\$ 0</u>
TOTAL CITY EXPENSE	<u>\$10,022,416</u>

- Overall, a \$320,057, **5.9%** increase in the FY 2027 General Fund expense budget, from \$5,379,180 in FY 2026 to \$5,699,237 (in FY 2027).
- A **5% cost of living salary/wage increase** for all City staff totaling \$92,998.15 in additional salaries.
- An increase of **1.0 additional full-time employee in Code Enforcement and Parking** to enforce existing City parking, vacation rental, and property management codes. This additional position brings the City's total personnel/staff to 27.

Estimated Additional salary/benefits expense: **\$76,542**

- The **Librarian position** in the City's Library goes from Part-time to Full-time.

Estimated Additional salary/benefits expense: **\$39,475**

- Additional contracted services:

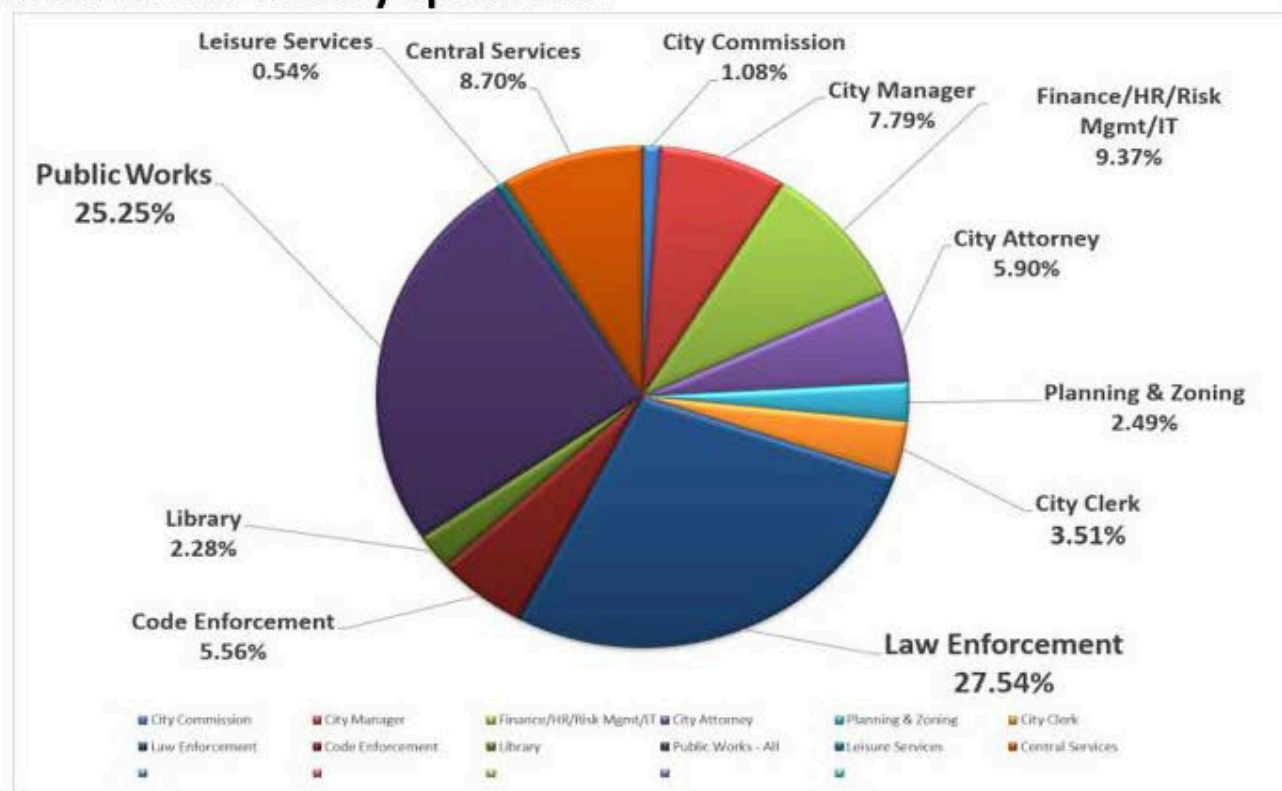

- Citizenserve software** in Code Enforcement **\$14,400**
 - Vacation Rental Registrations, BTR, Code Enforce, Permits
- Cybrella cybersecurity software** for City's IT **\$14,400**
- Forerunner software** – Flood Plain Management **\$13,000**
- Catalyst Communications** **\$60,000**
 - Strategic communications and public relations campaigns
- Land Development Regulations Review/Study** city codes **\$40,000**
- JUST FOIA** – public records request software **\$ 7,500**

- Law Enforcement Contract with Pinellas County Sheriff's Office will be 6.02% higher in FY 2027, totaling **\$1,559,340**.

7. Transfer of at least **\$750,000** from the Parking Fund to the Capital Improvement Projects & Equipment to pay for a variety of **Stormwater/Flood Control/Infrastructure improvement projects, mainly Outfall system improvements.**
8. Additional funding will provide for various **capital projects and equipment** including the annual road milling, resurfacing, curbing, & drainage (\$400,000), various city park upgrades at Kolb and Chic-A-Si parks (\$120,000), a code enforcement vehicles replacement (\$40,000), and a solid waste packer truck replacement (\$395,000).
9. Creation of Parking Fund includes various expenses previously funded by the General Fund, specifically Public Works costs for buoys (\$75,000), bollards (\$10,000), beach showers maintenance and replacement (\$4,500), overall beach access maintenance (\$20,000), and equipment (beach rake) maintenance and replacement costs (\$7,500).

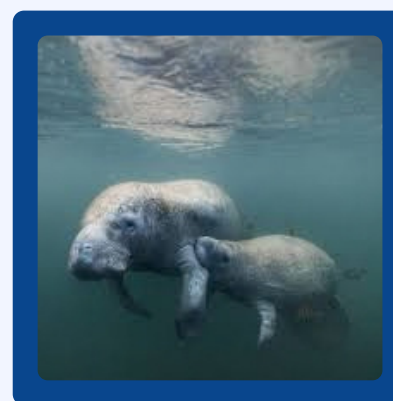

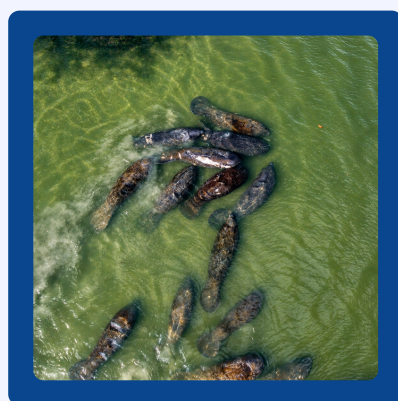

GENERAL FUND EXPENDITURES:

What is the money spent on?

RESPECT THE LOCALS

Protecting Manatees in Indian Rocks Beach

Manatees are frequent visitors to the waterways around Indian Rocks Beach, but they're not always easy to see.

From **April 1 through October 31**, designated waters outside the Intracoastal Waterway channel in our area are Slow Speed, Minimum Wake, as indicated by FWC regulatory markers.

You may not always see a marker when entering the water from a private dock or vacation rental. However, it is **still the boater's responsibility to know and follow the regulations.**

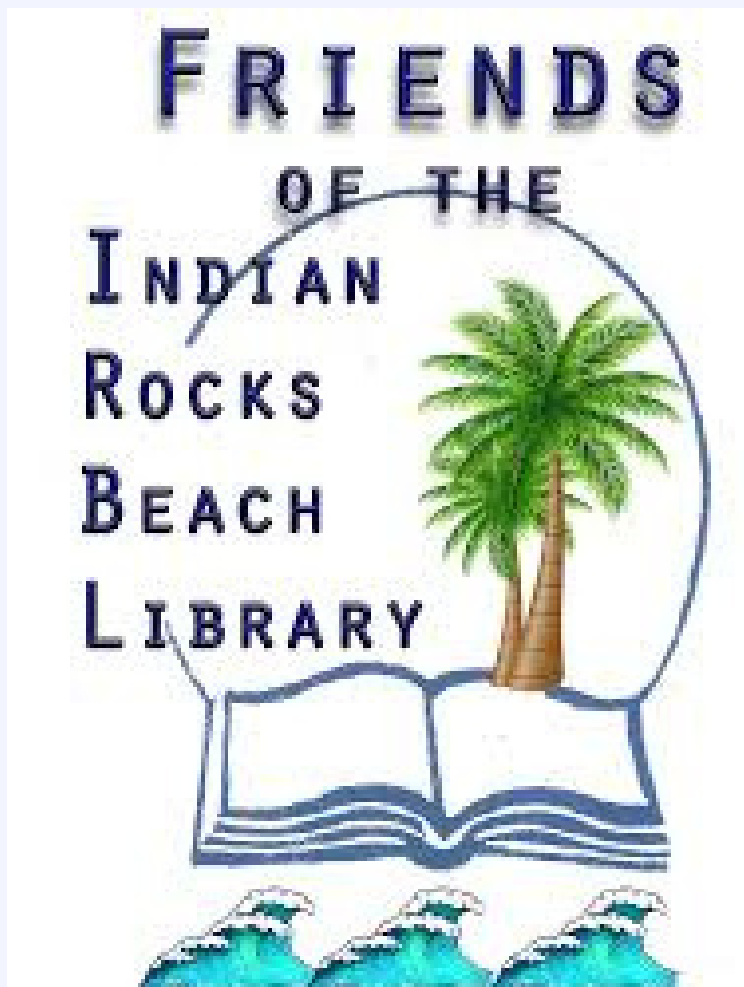

And yes, **WaveRunners and Jet Skis count, too.** A propeller isn't the only danger. FWC says watercraft collisions can cause blunt-force trauma as well as sharp injuries, and either can kill a manatee.

WHY SLOWING DOWN MATTERS

FWC researchers found that 1 in 4 adult manatees studied had evidence of 10 or more watercraft strikes. Only 4% had no watercraft-related scars. And because not every strike leaves a permanent scar, the actual number struck may be even higher.

18

Know the zone before you go. Slow down. Stay alert.

Your Community. Your Connection. Your IRB! | **BUILDING COMMUNITY**

You're Not Alone—We're Here for You

At the City of Indian Rocks Beach, we know that staying informed brings peace of mind, especially during hurricane season and as our community continues to recover and rebuild. No matter what questions you have or information you need, you don't have to navigate it alone.

Whether you're looking for the latest updates, emergency information, City news, or simply need to reach us, we're here to help.

Stay connected through our Emergency Weather Hotline, City website, TextMyGov, Facebook page, or by calling City Hall. Every neighbor matters, and we're committed to keeping you informed, connected, and supported every step of the way.

Building Community means making sure no neighbor feels alone.

We are here for you, today, tomorrow, and whenever you need us. ❤️🌴

City of IRB Partners with ForeRunner

We are excited to announce our partnership with Forerunner. Our new public website provides convenient access to property information and important documents, helping our community stay informed and reducing the need for in-person or phone requests.

You can use the website to...

1. Search for property information:

Every property within Indian Rocks Beach has a public profile that may include characteristics, available documents, and relevant requirements or notices. Search by address to learn more.

2. View important documents:

If documents such as permits, certificates, or reports are on file, you can search for them on the website and download them instantly.

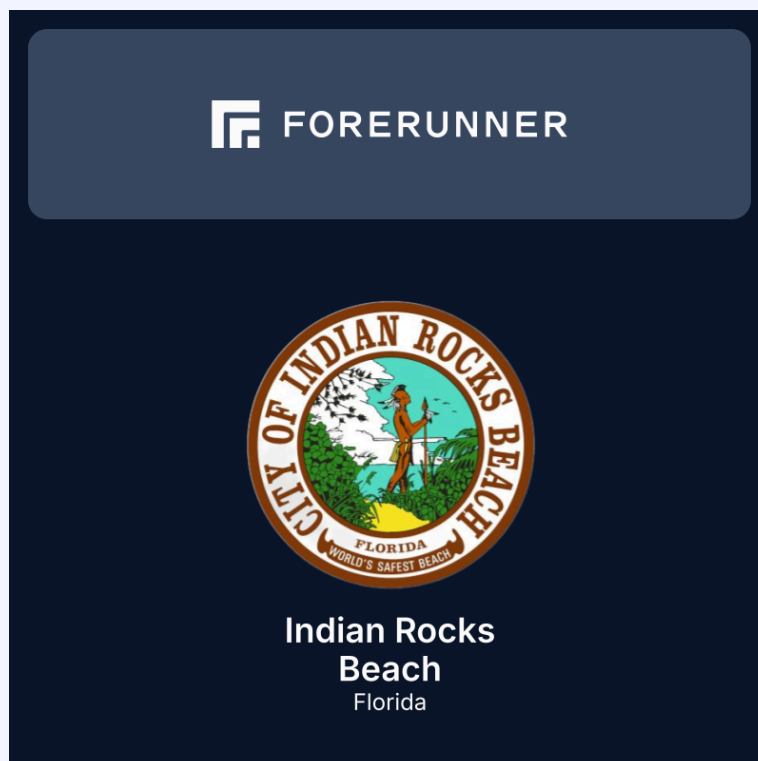

3. Understand applicable requirements:

The website may include details about any applicable local regulations, review thresholds, building requirements, or other considerations that apply to the property.

4. Request help:

If you can't find what you need, submit a request through the Get Help page. Enter the property address and include any details about your question and our staff will respond as soon as possible.

You can visit Forerunner through the following link: indianrocksbeachfl.withforerunner.com.

Recycle Right, Indian Rocks Beach: Small Habits Make a Big Difference

Keeping Indian Rocks Beach beautiful begins with everyday choices, including what we place in our recycling bins. The City encourages neighbors to review its recycling guides and follow a simple reminder: When in doubt, leave it out.

Knowing what belongs in the bin helps keep unsuitable materials from mixing with accepted recyclables. A few moments spent sorting at home can make a difference for our community.

According to the City's recycling guide, accepted items include glass bottles and jars; plastic bottles and jugs; metal food and beverage cans; milk, juice and broth cartons; and paper and cardboard.

All recyclables should be clean and dry. Empty containers, remove food residue and allow them to dry before placing them in the bin. The guide also instructs neighbors to remove caps and lids and keep straws out of recycling.

One especially important reminder: Keep recyclables loose. Plastic bags and bagged recycling do not belong in the bin. Collecting recyclables in a bag may seem convenient, but neighbors should empty accepted items directly into the recycling container.

Other items that should stay out include clothing, yard waste, foam packaging products, paper towels, tissues, napkins, shredded paper, wires, cords and hoses. Food waste and items containing food residue also do not belong.

An item's exclusion from curbside recycling does not necessarily mean there are no other options. Some materials may be suitable for reuse, donation or a separate collection program. Neighbors can find guidance through Pinellas County's "Where Does It Go?" search tool by visiting Pinellas.gov/where and selecting "For Homes."

For recycling questions, contact Pinellas County at 727-464-7500 or recycle@pinellas.gov.

By following these simple guidelines, Indian Rocks Beach neighbors can make recycling part of caring for the place we call home. It is another everyday way we are Building Community—one neighbor, one choice and one recycling bin at a time.
